d.com

Website: www.mdidental.org

Address: 630 East Washington Ave Madison, WI 53703 (Salvation Army)

MDI relies on volunteer dentists for scheduling. Because of it, we work hard to provide as many options as we can; however, we base the schedule around the scheduled days of each dentist.

Dental Hygiene – MDI has Dental Hygienists on staff that provide cleanings for all ages.

General Dentistry – MDI has approximately 40 dentists in the area that volunteer their time. These providers offer simple extractions, fillings, anterior root canals, and denture services.

Oral Surgeons – There are times that an extraction is beyond a general dentist's comfort zone. Thankfully, MDI can refer patients to Madison Oral Surgeons and Center for Oral and Maxillofacial Surgery.

Endodontists – MDI performs root canals on a limited basis and the tooth needs to qualify for this service. If a tooth qualifies for this service, MDI will either perform the root canal at our clinic or refer to Madison Endodontic Associate

To Qualify for Services:

1. Patient must be a resident of Dane County
2. Individuals must have NO private dental insurance (BadgerCare, Medicaid plans accepted)
3. Individuals must have family income below 200% of Federal Poverty Level

Madison Clinic Address: 231 S. Fair Oaks Avenue Madison, WI600 Williamson Street, Suite H Madison WI 53703

Dental Services

As a person living with HIV disease you are at high risk for tooth decay, gum disease and oral infections. This is especially true if your immune system is weakened. Even the HIV medications you take may cause oral health problems. If untreated these problems may make taking your medications even more challenging and eating nutritious food difficult, both of which would interfere with your HIV treatment plan.

Because good oral health contributes to successful HIV treatment, the ARCW Dental Clinic was established specifically for HIV patients. Our dental professionals are highly experienced in HIV oral health issues. They understand the importance of your HIV status and will treat you with the respect and dignity you deserve.

The ARCW Dental Clinic is a state-of-the-art facility that uses the finest technology to provide you with the highest quality of dental care. We are proud to offer the advantages of the new CEREC technology for tooth restoration. It enables our dentists to restore a decayed tooth with a beautiful ceramic crown during only one patient visit, as opposed to the two visits required by most other dentists..

Most importantly you will immediately discover that the ARCW Dental Clinic is a patient friendly environment. Our supportive dental staff and our comfortable dental suites will provide you with a relaxing experience.

As a patient of the ARCW Dental Clinic you will receive the most advanced oral health care services:

Preventive Oral Health Care

- Comprehensive oral examination
- Screening for HIV symptoms
- Screening for oral cancer
- Complete X-Rays
- Teeth cleanings
- Oral hygiene education

Restorative Oral Health Care

- Fillings
- Veneers
- Crowns
- Bridges
- Dentures
- Esthetic consultation
- Teeth whitening
- Root canals
- Extractions
- Emergency Oral Health Care
- Immediate dental care to relieve pain

The ARCW Dental Clinic will help you have a great smile, good oral health and a greater opportunity for successful HIV treatment.

Financial Help:

If you are unemployed, have low income or simply cannot afford the cost of dental care, the ARCW Dental Clinic will provide you with the care and treatment you need regardless of your ability to pay. ARCW patients will never be denied the dental care they need for financial reasons.

Clinic Hours:

Monday through Friday, 8:30-5:00pm.
